German

PROFILE

I am a motivated and detail-oriented data enthusiast with a strong command of Python, Pandas, NumPy, and SQL. Fluent in English and a native Uzbek speaker, I also have a foundational understanding of Russian and German (A1 level). My experience includes working on personal projects such as Melbourne Housing EDA and Hospital Analysis, where I applied data preparation and analytical techniques to extract valuable insights. With strong technical skills, multilingual abilities, and a passion for data-driven problem solving, I am eager to contribute to impactful projects that require analytical precision and innovative thinking.

EDUCATION

Secondary General Education/High School

International House Tashkent
Tashkent, Uzbekistan
2021-2023
GPA 5

PROJECTS

Melbourne Housing EDA - personal project. July 2024 **Performed data preparation tasks including handling missing values and dropping irrelevant columns of project.**
